Champion, 2013 Congress Res. Amateur Show-
manship Champion,
Multiple top 5 Congress and World Championships

- Open to the Public - Held in heated arena

The United Professional Horseman's Association arena is a fully heated indoor facility with spectator seating and sound system. Located in the William Woods University stable complex it is one of two indoor arenas on campus.

Directions to WWU UPHA Arena:

- From HWY 54—Take the HH exit and turn toward the Phillips 66 gas station (a right off the exit ramp if you are headed toward I-70 on HWY 54 or a left off the exit ramp if you are coming from I-70) onto William Woods Avenue.
- Follow William Woods Avenue as it makes a hard turn to the right and becomes Westminster Avenue. The back side of the stable complex is on Westminster Avenue between 14th and 13th streets.
- For clinic parking you are welcome to park along the stable block (13th street and Monroe street) or you can continue on Westminster Avenue and take a left on 12th. You will take another left on Ewing street and see a parking lot directly across from the brick front of the stables (WWU library parking lot).
