

We want to invite you to the beginning of something exciting: the introduction of equine therapy at COMTREA's Bridle Ridge Acres in Hillsboro, MO. We promised the county that we would begin this program as soon as possible and we are pleased to announce that we will see clients beginning the first week of February. We will first concentrate on children with behavioral health issues and then shortly move on to adults with Post Traumatic Stress Disorder.

Please join us for an open house at your Equine Learning Center. While the ceremony begins at 3:30 pm on January 16, the facilities will be open until 7:00 pm so you can bring your friends, family, and especially children to meet our miniature donkeys, our Morgan horse, our Holsteiner horse, our Palomino Tennessee Walking horse, and our first therapy horse: a Gypsy Vanner. We may have two additional miniature horses by the open house too.

We appreciate all the encouragement we have received and look forward to serving people with this program for years to come.

Introducing ~ The first therapy horse!

Bridle Ridge Acres

Thursday, January 16th, 2014
